

Your Dedicated Mobile Imaging Partner

You have many options when it comes to mobile imaging providers. Options about whom to buy from, when to buy, what services to select and at what price. With several vendors to select from, we encourage you to dig deeper — often not all is as it seems.

You have established the need for mobile services, and you may be uncertain about your next steps. You try to find answers to your questions: “Who do I choose? How do I pick? What should I know? What do I ask?”

There are numerous vendors to select from, and on the surface they all seem to be offering the same service. Since your choice of vendor is vital to your success, we encourage you to dig a little deeper and ask what is important to you.

Often vendors simply drop off the mobile unit, wipe their hands, deal done - never to be seen again - until, of course, it is time to renew the contract. The unfortunate truth is that while incentive price breaks in the initial contract may be attractive, they can quickly prove to be more costly over the long run. Imagine not having the service support you need during a busy day, or a loss in patient volume due to equipment failure. The costs incurred to send a patient away and the frustration of dealing with poor customer service only reinforce the importance of choosing the right imaging partner.

The Right Choice

Insight Imaging is here to serve you and provide you with the best possible experience. Many of our customers started out with just one or two days of

service. Then their needs grew - some required a fixed site, while others requested staffing and asset management support - so we grew together. We have customers that have been with us for over 10 years. “Why?” you might ask - because we have repeatedly proven our loyalty and dedication.

We are the leader in imaging solutions and at the forefront of managing the business of radiology with a focus on care. We are here to support your business aspirations. We have the tools and expertise you need to expand your imaging enterprise and tap into unexplored markets - but just as important, we are here for the long run.

Mobile Imaging Services

We offer you a well-balanced combination of diagnostic tools to assist in boosting your current healthcare offerings:

- Mobile MRI & PET/CT
- Asset Management
- Operational Management

Benefit from our turnkey solutions to include equipment, staffing and comprehensive operational management. You can entrust us to provide you with all the support you need, when you need it.

Mobile Imaging Services

Mobile MRI & PET/CT

We understand that large capital investments in new technology can be risky. Insight Imaging removes the risk and allows you to choose from three convenient options:

- Point-to-Point Mobile: Service suited to facilities for repeat or long-term use that do not have MRI or PET/CT, or experience overflow capacity issues
- Interim Mobile: Interim service for facilities that are remodeling, expanding or replacing existing equipment
- Fixed/Parked Mobile: Permanent service that supplements on-site radiology capabilities and is easily adaptable to satisfy increased volume

We maintain a wide variety of mobile units to meet your short- and long-term rental needs. Our entire rental fleet is covered by full OEM service and is inventoried and tested prior to being used. Our staff is experienced in listening to your requests and matching you with the most appropriate technology for your clinical needs. We provide delivery, and setup, and offer site planning assistance. And of course — every mobile unit comes with an uptime guarantee.

Asset Management

Our skilled professionals oversee equipment maintenance and quality control programs to ensure that you receive the best possible service. We understand that having detailed visibility into operations is essential to working most effectively. Our team diligently helps monitor your equipment for optimal scheduling and utilization. Should you need additional support, simply give us a call and we will be there to help you.

Operational Management

With over two decades of extensive diagnostic imaging enterprise management, we are subject matter experts when it comes to streamlining workflow. Benefit from the solid network and OEM relationships we have built. Whether you need a partner that understands your unique environment, can provide the necessary infrastructure, or whether you require staffing support - allow us to assist you in finding the solution that best suits your needs.

Every step of the way, we strive to help you optimize your facility so you can provide the best care to your patients.

Results You Can Depend On:

- Joint Commission's Gold Seal of Approval
- American College of Radiology accreditation support
- DOT SAT rating
- Quality control programs to ensure maximum uptime
- 99% on-time delivery even during inclement weather conditions
- "Greener fleet" with lower energy and fuel consumption
- Continuous investment in fleet for superior equipment condition
- Highly skilled drivers who undergo comprehensive training
- Evening maintenance service to minimize operational disruptions
- Complete site planning services
- 95% of patients would return and recommend us
