### **INSIGHT IMAGING – CAMELBACK INSTALLS NEW COMPUTED TOMOGRAPHY (CT) SYSTEM**

#### **GE LightSpeed® 16 Slice CT System Provides High Quality Images and Reduces Radiation Exposure**

**PHOENIX, AZ (February 16, 2010)** – Insight Imaging – Camelback recently announced that it installed the new LightSpeed® 16 slice computed tomography (CT) system from GE Healthcare. The CT system is one of the most advanced diagnostic tools for helping physicians reach confident patient diagnoses by delivering high quality images with improved resolution and lowered radiation dose.

“The addition of the GE LightSpeed 16 slice system complements and extends the range of quality diagnostic services that Insight Imaging – Camelback offers its patients,” said Jordan Cohen, M.D. of Insight Imaging – Camelback. “It provides us with vastly improved image quality and imaging speed, which will enhance our overall diagnostic confidence with this modality.”

CT exams are used when people are ill or injured, or when a physician suspects a medical problem that is not easily detectable from a conventional physical examination. The GE LightSpeed 16 slice configured system non-invasively assists physicians in the diagnosis of a variety of anatomical areas.

To schedule an appointment at Insight Imaging – Camelback, please call (602) 274-9811.

#### **About Insight Imaging**
